

Healthy Teeth = Healthy Kids!

The Brown County Oral Health Partnership (OHP) is a nonprofit organization committed to providing dental education, preventive and primary care services to students from Pre-K through grade 12. OHP dentist, hygienists and assistants travel to different schools with mobile equipment to create an in-school dental office.

Oral Health Partnership is here to treat the children of Green Bay who are on medical assistance or who are uninsured but qualify for free/reduced lunch at their school.

Oral Health Partnership wants to help your child have healthy teeth so they can continue to be confident successful students!

We are open all year! To learn more about scheduling your child's dental visit, call (920) 965-0831 today!
